COVID 19 Ongoing Protocols – April 2021

At Advanced Orthopedics, there is nothing more important than the health and safety of our patients and staff. We want to assure you that we continue to follow enhanced protocols in our offices and are committed to providing the high quality and compassionate care you deserve.

Here is what you can expect when you come to our offices:

- **VISITOR GUIDELINES** – We are asking that only the patient attend their appointment unless the patient is a minor or medically requires assistance.
- **ENTRANCE SCREENING** – Anyone entering our offices will be required to have a temperature screening. You will be asked to answer a series of questions related to your health and travel history, which are based on the CDC guidelines.
- **FACE COVERING** – All patients are required to wear a face covering at all times while in the office.
- **SOCIAL DISTANCING** – All patients and visitors are asked to maintain appropriate distancing at all times.

We continue to provide quality care for your urgent injuries or chronic orthopedic conditions. We are actively scheduling urgent and elective surgeries for our patients.

We thank you for your attention to our safety protocols and appreciate your flexibility and patience.
